

ATTACHMENT B-15

ADDITIONAL SPECIAL PRODUCT ASSURANCE REQUIREMENTS

This attachment defines the requirements imposed on a subcontractor for assembly or component testing. It is a requirement as part of your quotation or purchase order that a preliminary test plan (or test travelers) be sent to BEI purchasing for approval by BEI's Reliability and Quality Assurance Department prior to initiation of any testing. The test plan, or test travelers, must verify compliance to BEI and/or other specifications. The submitted test documentation must include as a minimum:

- A. List of test to be performed
- B. Sequence in which tests are to be performed
- C. Test parameters
- D. Test conditioning including test methods (if applicable)
- E. Test limits for each parameter
- F. Test and/or computer address key (if applicable)
- G. Test equipment to be used to accomplish testing to include description, manufacturer, model, etc
- H. Copies of any applicable company specific procedures or documentation to be used to accomplish testing
- I. Any exceptions or deviations from test specification

These requirements are in addition to those which may be required by the test specification.
