

ATTACHMENT B-17

Supplier Product Assurance Requirements

The product specified in this order are intended for use in manned space flight. Materials, manufacturing, and workmanship of highest quality standards are essentials in order to ensure astronauts safety.

If you are able to supply the desired items with a quality that is higher than that of the items specified or proposed, you are requested to bring this fact to the immediate attention of the purchaser. This clause shall be inserted in your sub-tier purchase contracts to the lowest tier.

The products specified in this order are intended for use in high vacuum environments. No zinc or cadmium plated processes are allowed on components or assemblies in this order.
