

ATTACHMENT B-22

SUPPLIER PRODUCT ASSURANCE REQUIREMENTS

The Supplier of supplies required in this purchase order must be actual manufacturer of the supplies, or a distributor authorized by the manufacturer. By providing supplies required this order, the supplier/manufacturer certifies that:

- a) The items were actually produced or assembled by designated manufacturer
- b) The items conform to the manufacturer's current standards of performance and quality for items of the specified designation, and
- c) The supplier/manufacturer must furnish appropriate documentation with the delivery of the supplies to trace the items back to the manufacturer's identification, configuration control number, inspection lot number, and inspection/ test records.

If the supplier is not able to comply with these requirements, he/she must notify the Buyer immediately, and refrain from shipping the supplies until authorized to do so by the Buyer.
