

ATTACHMENT B-26

(BEI INTERNAL USE)

Parts purchased for this part number require verification of the suppliers certifications. Receiving Inspection shall retain one (1) item from each lot received from the supplier. This part shall be submitted to a BEI approved test laboratory for verification of materials properties prior to release of the items into inventory.

BEI Quality Engineering shall review the test lab report to verify supplier certifications are correct and indicate acceptance of the parts by stamping and dating the Incoming Inspection Report(IIR). After Quality Engineering acceptance, the material shall be forwarded to stock.
